## BROKE AT BIRTH

T.T. 03

### FACT: TRUMP WAS BORN PENNILESS

Contrary to what you might think, some babies are born without their own wallets. Such was the case in 1946, when a penniless 198 pound baby boy was born in Queens, New York, by the name of Donald J. Trump.

Folks, it was very embarrassing. When the hospital bill was delivered to the infant, it was discovered the young boy was prematurely born without his own money or influence!

Without direct help by way of an infusion from his father, young Trump might die right there on the table. Or worse, *fly home in coach!*

### How You Can Help:

Donald Trump is now doing okay, and for some years has been off of the life-support machines of his family's cash. But due to a birth defect of emotional neglect, his brain still lacks the necessary experiences to feel joy and happiness. You can help by donating your time and attention, by way of retweeting his missives, or discussing him on cable news.

### Out of Sight/Out of Mind

Please, we can only keep Donald Trump alive by talking about him. Send text messages, complain on the Internet, share links. Without your help, he still can wither into obscurity. Imagine if he gets ZERO votes. How broke would that be!
